

Hash Functions: SHA-512

```
graph LR; A[Hash Functions: SHA-512] -.->|sha2k64.h| B[Hash Functions: SHA-384]; A -.->|sha512.h| C[Hash Functions];
```

The diagram illustrates the relationship between different SHA hash functions. A central box labeled 'Hash Functions: SHA-512' is connected by dashed green lines to two other boxes. The top box is labeled 'Hash Functions: SHA-384' and is reached via the path 'sha2k64.h'. The bottom box is labeled 'Hash Functions' and is reached via the path 'sha512.h'.
