Copying, Music

A music copyist did fast freehand scores and parts on preprinted staff lines for performance. Some of their conventions (e.g., the placement of noteheads on stems) varied slightly from those of engravers. Some of their working methods were superior and could well be adopted by music typesetters. This required more skill than engraving.

custos

A custos is a staff symbol that appears at the end of a staff line with monophonic musical contents (i.e. with a single voice). It anticipates the pitch of the first note of the following line and thus helps the player or singer to manage line breaks during performance, thus enhancing readability of a score.

Custodes were frequently used in music notation until the 16th century. There were different appearances for different notation styles. Nowadays, they have survived only in special forms of musical notation such as via the editio vaticana dating back to the beginning of the 20th century
